Manav Vyas

AI / ML Engineer • Full Stack Developer

202512062@dau.ac.in | LinkedIn: manav-vyas-1576342a4 | GitHub: github.com/vyasmanav | Ahmedabad, Gujarat

PROFESSIONAL SUMMARY

Motivated M.Sc. (IT) student at Dhirubhai Ambani University with hands-on experience building AI/ML-powered applications. Proven ability to implement end-to-end machine learning pipelines — from data preprocessing and feature engineering to model deployment via REST APIs. Passionate about adaptive learning systems, computer vision, and applying deep learning to solve real-world problems. Eager to contribute to intelligent platforms as an AI Engineer Intern.

EDUCATION

M.Sc. (IT) — Master of Science in Information Technology *2025 – Present*
Dhirubhai Ambani University (DA-IICT) Gandhinagar, Gujarat
Relevant Coursework: Machine Learning, Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems

BCA — Bachelor of Computer Applications *2022 – 2025*
LJ College of Computer Applications, Gujarat University Ahmedabad, Gujarat
CGPA: 7.91 / 10.0 (above minimum threshold of 6.5 required)

12th Science — Higher Secondary Certificate *2021 – 2022*
Divine Buds English School (GSEB) Ahmedabad, Gujarat
Percentage: 82.4%

10th — Secondary School Certificate *2019 – 2020*
Divine Buds English School (GSEB) Ahmedabad, Gujarat
Percentage: 61.83%

AI / ML PROJECTS

Smart Face Attendance System | *Python · PyTorch · DeepFace (Facenet512) · OpenCV · CNN · Django · MongoDB · REST API*

- Designed and trained a **CNN-based facial recognition pipeline** using DeepFace (Facenet512) and OpenCV, achieving high-accuracy real-time identity verification from live video feeds.
- Performed **data preprocessing and feature engineering** on face embeddings; evaluated model accuracy using standard classification metrics (precision, recall, F1-score).
- Built and deployed a scalable RESTful API with Django REST Framework, achieving a **30% improvement in data retrieval speed** — demonstrating ML model integration into production systems.
- Automated real-time attendance tracking workflow **end-to-end**: image capture → inference → MongoDB storage → reporting dashboard (HTML/CSS/JS frontend).
- **Documented** experiment configurations, model performance results, and API specifications for knowledge sharing within the development team.

TECHNICAL SKILLS

AI / ML: Python (NumPy, Pandas, Scikit-learn), PyTorch, OpenCV, DeepFace, CNN, Jupyter Notebook, Google Colab
Languages: Python, C++, Java, JavaScript, SQL
ML Concepts: Classification, Regression, Model Evaluation, Data Preprocessing, Basic Statistics
Frameworks: Django, Django REST Framework, React.js, Node.js, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL, Firebase, PostgreSQL
Developer Tools: Git, Docker, Postman, VS Code, Linux Shell

ALIGNMENT WITH AI ENGINEER INTERN ROLE

- **Hands-on ML project** (Smart Face Attendance System) directly demonstrates classification, model evaluation, and real-time inference — core responsibilities of the role.
- Experienced with **Python** for scripting, automation, data handling, and model evaluation — matching all required skill criteria.
- Familiar with CNN architectures and comfortable running experiments in **Jupyter Notebook / Google Colab** environments.
- **Documented** technical experiments and participated in collaborative team environments throughout BCA program and event management roles.
- Strong foundational knowledge in **linear algebra, probability, and statistics** from M.Sc. coursework and BCA curriculum.

POSITION OF RESPONSIBILITY

Management Team Member *2022 – 2025*

LJ College of Computer Applications Ahmedabad, Gujarat

- Coordinated and managed multiple college-level technical and cultural events — demonstrating sprint-like planning, execution, and cross-functional team collaboration.
- Led event logistics, vendor coordination, and live execution for 3 years, ensuring smooth operations under deadlines.
- Collaborated with faculty and student bodies to secure sponsorships, manage budgets, and oversee publicity campaigns.

SOFT SKILLS & INTERESTS

Team Collaboration • Technical Documentation • Problem Solving • Independent Learning • Communication • Time Management

Areas of Interest: Artificial Intelligence & Machine Learning • Computer Vision • Adaptive Learning Systems • Full Stack Development • Cloud Computing
